INDEXES TO VOLUME 68, 1997

Index to Subjects

A

Abstract of the 1997 Annual Meeting--614, 955
Acceleration--see also G-force
  comparison of subjects, spinal anomaly--426
  female tolerance, menstrual state and physical condition--525
  -Gz force in horizontal position--1099
  +Gz stresses and heart damage--596
  high +Gz loads and head positioning--732
  non-pilot substitutes, validity--1081
Accidents
  high refractive error and accident rate--1050
Acute mountain sickness
  are lab and field conditions related--895
  not altered by high carbohydrate diet--499
Aeromedical certification
  chronic glomerulonephritis--225
Aeromedical disqualification
  at Armstrong Laboratory (1973-1993)--378
Aeromedical evacuation
  aeromedical services, military and civilian emergencies--56
Aeromedical research and human subject volunteers--746
Aerospace Medical Association annual meeting--247
Aerospace medicine
  defibrillators & advanced medical care in commercial aviation--365
  East meets West, aeromedical practices--1150
  flight surgeon's role in arctic deployment--137
  forum for leadership in preventive medicine--542
Aerospace Medicine Reviews--83, 167, 452, 549
Air ambulance--see aeromedical evacuation
Air combat maneuver, simulated and respiratory fatigue--118
Air quality in cabin--80
Air sickness--see Motion sickness
Air traffic controllers
  shiftwork, USAF--18
  shiftwork and aviation safety--69
Aircraft
  carrier, hazardous environment--51
  ejection and vertebral fracture--337
  passenger doctors in civil airliners--1134
  the very large airplane--943
  type and back injuries--1012
Aircrew--see also Aviator
Alcohol
  pilots' knowledge of consumption and blood levels--531
  urinary 5-hydroxytryptophol for detecting consumption--30
Altitude
  arterial gas embolization in altitude chamber flight--1025
  auditory evoked potentials and altitude hypoxia--699
  effects on human taste intensity--1123
  Navy chamber and prediction of barotrauma--61
  sympathetic activation to ventilation--104
  tolerance to hypoxia and smoking--807
  ventilatory capacities at sea level and at altitude--488
AMS--see Acute mountain sickness
Antarctica
  blood pressure monitoring--795
  human adaptation in wintering-over--1144
Armstrong Laboratory and human research disqualification--378
Anti-emetic drug effect
  pilot performance--998
  psychomotor performance--504
Astronaut, crew communication under prolonged isolation--1093
Attentional flexibility, visual scanning and pilot expertise--569
Auditory evoked potentials and altitude hypoxia--699
Aviation accident--see Accidents
Aviation forensic toxicology and role of metabolites--230
Aviation medicine--see Aerospace Medicine
Aviation Safety
ATC shiftwork--69
  fatigue in the aviation environment--932
  obstructive sleep apnea--1139
passenger safety, health and comfort--432
  preflight medical screening of passengers--923
  the very large airplane--943
Aviator
  aircraft type and back injuries--1012
  anti-emetic drug effect on pilot performance--998
  anti-G-straining maneuver and skill performance--322
  aortic valve replacement--221
  chronic conditions and professional longevity--373
  chronic glomerulonephritis--225
  deep venous thrombosis and a protein C resistance--606
  dextroamphetamine efficacy on performance--1073
  ECG findings in NATO pilots--596
  female USAF pilots--132
  gait disturbance in aviator--147
  head positioning and high +Gz loads--732
  interpersonal relationships and POW concerns--879
  non-pilot substitutes in acceleration studies--1081
  male-female performance on selection tests--818
  optokinetic cervical reflex in pilots--479
  panic in tactical jet aviators--217
  pilot performance of anti-G-straining maneuver--312
  pilots' knowledge of alcohol consumption and blood levels--531
  professional reliability and psychophysiological assessment--368
  salivary cortisol levels of pilots with hypobaric hypoxia--183
  screening EEG and performance--209
  spontaneous resolution of disc protrusion--334
  stress in USA aviators in combat--1088
  visual scanning and pilot expertise--569

B

Back pain during head down tilt--24
Barotrauma
  functional endoscopic sinus surgery for--1029
  predicting events in Navy altitude chamber--61
Bed rest, effects of exercise on postural control--392
Bends--see Decompression sickness
Biological processes rate and relativistic velocities--538
Biomechanical model of spine forces--512
Book Reviews--1 65, 166, 352, 353, 548, 612, 613, 755, 868, 952, 1056, 1057, 1157

C

Caffeine pharmacokinetics during hyperbaric hyperoxia--142
Cabin air quality--80
Carbon dioxide
  effects of increased concentration on coherent motion--187
  levels and physiological effects--41
Carbohydrate
  and electrolyte solution effects on task performance--384
  high diet doesn't alter acute mountain sickness--499
Cardiovascular
  air embolism and vascular permeability--802
  ambulatory blood pressure monitoring in Antarctica--795
  aortic valve replacement in aviator--221
  arterial gas embolism and altitude chamber flight--1025
  arterial occlusion cuffs and +Gz arm pain--715
  changes in simulated lunar flight--829
  defibrillators in commercial aircraft--365
  ECG findings in +Gz stresses--596
  effects of hypovolemia on aortic baroreflex control--838
  heart rate responses to real and simulated flight--601
  hypothermia-induced cardiac arrest in monkeys--415
  sustained -Gz force--1099
Centrifuge--see G-force
Chemical protective clothing, low burden and physiological strain--126
Chemical warfare gear--see Chemical protective clothing
Cigarette--see Tobacco
Clothing, protective--see Chemical protective clothing
Cockpit, laughter seizures--66
Cognition, anti-retroviral therapy--900
Coherent motion perception and increased CO_2--187
Cold
  almitrine bismesylate effects--824

human adaptation, Antarctic wintering-over--1144
hypothermia-induced cardiac arrest in monkeys--415
local hand cooling and suppression of reactive hyperemia--46
prediction of survival time at sea--441
Commentary
leadership forum in preventive medicine--542
role of defibrillators in commercial aviation--365
Communication, crew, under prolonged isolation--1093
Complement activation during air embolism--300
Coriolis effect and head motion--93
Cortisol levels in saliva of pilots--183
Cosmonaut--see Astronaut
Cytokines, level in acute mountain sickness--499

D

DCI--see Decompression sickness
DCS--see Decompression sickness
Decompression sickness
Doppler detected microbubbles--151
exercise effects during 100% 0_2 prebreathe--199
guidelines for treatment--234
relationship between age and susceptibility--695
SCUBA DCI and diving fatalities--325
Deployment
aircraft carrier and hazardous environment--51
arctic deployments and flight surgeon's role--137
Desynchronosis--see Circadian rhythm
Disorientation
demonstration in British Army Air Corps--342 postural ataxia--13
Diving fatalities and SCUBA DCI--325
Doppler detected microbubbles in DCS--151
Drugs
anti--retroviral therapy and cognitive function--900
almitrine bismesylate and hypoxemic hypothermia--824
Dextroamphetamine efficacy in pilot performance--1073
granisetron vs. ondansetron, effect on pilot performance--998
marezine and dramamine in preventing motion sickness--890
sleep-wake cycle with temazepam or placebo--688
unilateral mydriosis from Opcon-A--1035
zolpidem as a fatigue counter measure--926
Dynamic Aviation Data System--736

E

East meets West, aeromedical practices--1150
Editorial, visions of electronic editing--1
Electroencephalogram and pilot cadet performance--209
Emergency aeromedical services, military and civilian goals--56
Escape, helicopter
evacuation, life raft--35
underwater--844
Exercise
capacity during and after spaceflight--812
during head-down bedrest--392
effects on hematologic adaptation to training in females--788
preoxygenation and risk of hypobaric DCS--199
renal and hormonal responses--1038

F

Fatigue
during long-haul night flights--679
in the aviation environment--932
in USAF air traffic controllers--18
respiratory muscle, in air combat--118
zolpidem as a fatigue countermeasure--926
Females
acceleration tolerance, menstrual state and physical condition--525
effects of exercise mode on endurance training--788
Gulf War veterans and health--317
interpersonal relationship and POW concerns--879
laserglare, male and female performance--580
Fire hazard in low barometric pressures--159
Flier--see Aviator
Flight medicine--see Aerospace medicine
Flight nursing
humanitarian assistance airlift--953
experience in Somalia--1058
Flight simulator, disorientation, and ataxia--13
Flight surgeon--see Aerospace medicine
Flight types, discrimination by saccade amplitude--205
Fluids, whole--body distribution monitoring--858
Forensic aviation toxicology and role of metabolites--230

G

G-force
-Gz force in horizontal position--1099
+Gz arm pain and arterial cuffs--715
+Gz neck injuries--520
G-suit pressure schedule of G-duration tolerance--403
high +Gz loads and head positioning--732
pilot performance of anti-G-straining maneuver--312
Gait, unusual in aviator--147
Gelastic seizures, laughter in cockpit--66
Glomerulonephritis, chronic, and aeromedical disposition--225
Granisetron
drug effect on performance--504
vs. ondansetron on pilot performance--998
Gulf War
health of veteran women--317
vertebral fracture after aircraft ejection--337

H

Hazardous environment, injuries aboard aircraft carrier--51
Head--down tilt, back pain, height increase with traction--24
Head movement, effect on motion sickness--93
Head position
aviation special orientation--463
high +Gz loads--732
Health, physical and emotional of Gulf War veteran women--317
Heat stress--see Stress
Hedonics, high altitude effects on human taste--1123
Helicopter
emergency breathing aids for escape--907
escape underwater--844
life raft evacuation--35
loading of head-supported devices--915
pilot performance and efficacy of dextroamphetamine--1073
Hematologic adaptations to endurance training in females--788
Hormones, changes in simulated lunar mission--829
Human subject
non-pilot substitutes for pilots--1081
research and disqualification--378
screening, a dynamic process--939
volunteer research--746
Humanitarian assistance airlift--953
Hyperbaric
hyperoxia and caffeine pharmacokinetics--142
oxygenation influence of leukocyte viability, surface protein expression--1129
Hyperthermia--441, 1109
Hypobaric
fire hazard in 0_2 enriched atmospheres--159
hypoxia, effects on salivary cortisol--183
Hypobaric chamber, Venturi vacuum systems--1046
Hypothermia--see Cold
Hypovolemia, effects on aortic baroreflex--838
Hypoxia
acute altitude convulsion in mice--296
almitrine bismesylate effects and hypothermia--824
altitude effects on auditory evoked potentials--699
altitude tolerance and smoking--807
cognitive performance during short acclimation--993
normobaric, effect on performance--985
renal function of substance P--705
slowing originates in visual systems--886 syncope--410

I-J-K-L

Impact--see also G-force

Laser glare, male and female performance--580
Laughter in the cockpit, gelastic seizures--66
Legal implications of preflight medical screening of passengers--923
Letters to Editor--246, 354, 522, 756, 1059, 552, 1159-1160
Life support
  breathing aids in helicopter escape--907
  head-supported devices and neck loading--915
Lovelace Award Lecture--863

M

Marezine and dramamine in preventing motion sickness--890
Memory performance, EEG in pilot cadets--209
Menstrual state and female acceleration tolerance--525
Micro-bubbles, Doppler detected, in DCS--151
Microgravity
  engineering approach to microgravity syndrome--346
  growth of bacteria in semi-solid media--1104
  influence of non-weight bearing on motorneurons--421
  pointing at memorized targets--99
  radioactive tracer distribution--726
Military aviation--see Aviator
Mishaps--see Accidents
Model
  mathematical model for O_2 calculation--722
  mental model development, visual scanning, pilot expertise--569
MOPP gear--see Chemical protective clothing
Motion sickness
  comparison of marezine and dramamine--890
  effects of special frequency of rotating drum--306
  frequency effect of horizontal translational oscillation--396
  susceptibility test--588
Mountain sickness--see Acute mountain sickness
Mountaneering--see Altitude; also Hypoxia
Muscle
  non-weight bearing effect--421
  power and leg strength in parachutists--710

N-O

Neck injury
  parachuting--228
  in Royal Australian Air Force pilots--520
Negative pressure breathing effect on muscle-nerve activity--494
Neuromuscular function in head-down tilt--24
Night vision--see Vision
Night vision goggles--see Vision
Nitric oxide in acute hypoxia in mice--296
Nystagmus, vertical optokinetic during backward tilt--289

Obstructive sleep apnea, an air safety risk--1139
Occupational medicine,
  methodology in military fitness, readiness--740
Ondansetron effects on performance--504
Operations, two-crew reflex in pilots--679
Optokinetic cervical reflex in pilots--479
Oxygen
  closed circuit O_2 rebreathing gear--722
  enriched atmosphere and fire hazard--159
  hyperbaric influence on leukocyte viability and surface protein expression--1129

P

Panic in tactical jet aviator--217
Parachuting
neck injury--228
  injury among male and female--1006
  leg strength and power--710
Passenger doctors in civil airliners--1134
Performance
  carbo-electrolyte solution effects on military tasks--384
  effects of anti-emetic drugs--504
  effects of ganisetron vs. ondansetron--998
  efficacy of dextroamphetamine in pilots--1073
  male, female in presence of laser glare--580
  male-female on USAF pilot tests--818
  normobaric hypoxia confinement--985
  short acclimation to severe hypoxia--993
Pharmacokinetics of caffeine during hyperbaric hyperoxia--142
Physical training--see Exercise
Physiological effects of high CO_2 --41
Pilot--see Aviator
Pointing at targets in microgravity--99
Positive pressure breathing, effect on muscle-nerve activity--494
Postural orientation, subjective, and visual vertical--3
POWs, female, and interpersonal relationships--879
Preventive Medicine Leadership Forum--542
Protein C resistance and deep venous thrombosis--606
Psychology
  interpersonal relationship and POW concerns--879
  psychomotor performance effects of anti-emetic drugs--504
  psychophysiological assessment method for pilot reliability--368

Q-R

Radioactive tracer distribution in limb unweighting--726
Reflections of Flight Nursing
  flight nurse's experience in Somalia--1058
  flight school revisited--1158
  humanitarian assistance airlift--953
Renal, substance P in hypoxia--705
Respiratory muscle fatigue during simulated air combat--118
Review articles
  ATC shift work and aviation safety--69
  fatigue in the aviation environment--932
  passenger safety, health, and comfort--432
Royal Australian AF pilots and +Gz neck injuries--520

S

Science News Note
  Doppler detectable microbubbles in DCS--151
  engineering approach to microgravity syndrome--346
  fire hazard in O_2 rich atmosphere--159
  high refractive error and accident rate--1050
  relativistic velocities on rate of biological processes--538
  role of metabolites in aviation forensic toxicology--230
SCUBA, DCI and diving fatalities--325
Skin protectant and heat exchange--1019
Sinus barotrauma and functional endoscopic surgery--1029
Sleep deprivation
  fatigue in air traffic controllers--18
  sleep-wake cycle with temazepam or placebo--688
Smoking--see Tobacco
Somalia, flight nurses experience--1058
Somatogravic illusion, effect of horizontal oscillation--396
Space Adaptation Syndrome (SAS)--see Motion sickness
Space motion sickness (SMS)--see Motion sickness
Space sickness--see Motion sickness
Spaceflight
  exercise capacity during and after spaceflight--812
  pointing arm movements--781
  simulated lunar flight, cardiovascular, hormonal changes--829
  visual location in a space habitat--192
Spatial orientation, relationship to head position, altitude--463
Special report, guidelines for treatment of DCS--234
Spine
  aircraft type and back injuries--1012
  comparison of acceleration subjects, spinal anomaly--426
  disc protrusion in a military aviator--334
  forces under whole-body vibration--512
  vertebral fracture after aircraft ejection--337
Stress
  two-crew operations, and fatigue--679

USAF aviators facing combat--1088
Student aviator--see Aviator
Substance P, renal function and hypoxia--705
Survival time, prediction at sea--441
Sympathetic activation to ventilation at altitude--104
Sympatho-vagal responses to water immersion--1109
Syncope, hypoxic--410

T

Taste intensity, effects of high altitude--1123
Technical Note
British Army Air Corps spatial disorientation--342
high refractive errors and accident rate--1050
prediction of survival time at sea--441
Temazepam or placebo effect on sleep-wake cycle--688
Thermoregulation, topical skin protection--1019
Thermoneutral head-out water immersion--1109
Tilt, slow pitch--3
Tobacco, altitude tolerance and hypoxia--807

U-V

Undergraduate pilot training--see Aviator
Urinary 5-HTP and alcohol consumption--30

Vascular permeability
air embolism and dibutyryl cAMP--802
during air embolism--300
Venous thrombosis, deep, and activated Protein C resistance--606
Ventilation
capacities at sea level and high altitude--488
sympathetic activation at altitude--104
Venturi vacuum systems for hypobaric chamber--1046
Vestibular
visual input in human dynamic balance--588
visual interaction during head rotation--111
Vibration
whole-body and spine forces--512
whole-body, effects on head positioning task--1115
Vision
evaluation of stability of night vision tests--565
high refractive errors and accident rate--1050
saccade amplitude as discriminator of flight types--205
slowing due to acute hypoxia--886
unilateral mydriasis--1035
vertical optokinetic nystagmus during backward tilt--289
vestibular interaction during head rotation--111
visual acuity test and visual--vestibular interaction--111
visual localization in a space habitat--192

W-X-Y-Z

Weightlessness--see Microgravity
Work--see Exercise

You're the Flight Surgeon--163, 244, 349, 350, 449, 450, 545, 546, 609, 610, 751, 752, 753, 866,947, 948, 950, 951, 1052, 1055, 1154, 1155
